PROFESSIONAL SUMMARY

Flutter developer with hands-on experience building and shipping mobile applications integrated with Firebase, IoT hardware, and Python backends. Skilled in full-stack development across Flutter, Dart, and cloud services, with a track record of delivering real-world solutions for local and international clients.

SKILLS

Languages:	Dart, Python, C/C++, SQL
Frameworks:	Flutter, Provider
Backend & Cloud:	Firebase (Auth, Firestore, Cloud Functions), REST APIs, Streamlit, Railway, Supabase
AI & APIs:	Gemini API
IoT:	Bluetooth communication, sensor integration (pH, TDS, turbidity, flow sensors), hardware-software bridging
Tools:	Figma, Git, GitHub, Android Studio

WORK EXPERIENCE

Full Stack Development Intern

Apr 2026 – Present

CDGAI, Peshawar

- Developing a university admissions portal across Flutter (mobile) and Next.js (web), collaborating within a team environment following structured development workflows.

IoT Course Consultant

Jan 2026

NAVTTTC & British Council, Peshawar

- Engaged as an individual industry consultant to co-design an IoT curriculum integrating Flutter-based mobile application development with hardware systems.

Freelance Flutter Developer

Jan 2026 – Feb 2026

Remote — International Client

- Delivered a paid Flutter application for image authentication, connecting Cloudinary-hosted assets to a Railway-deployed Python backend with real-time Firebase data synchronization for approximately 50 active users.

App & Hardware Development Intern

Aug 2025 – Oct 2025

ASTechSolutions, NIC Peshawar

- Shipped a Flutter application integrating Bluetooth communication with a sanitary pad dispenser, featuring fingerprint enrollment for hardware access control and a Firebase-backed admin panel for real-time user management.

Business Manager

Aug 2023 – Nov 2024

Nebula X, Peshawar

- Sourced and matched freelance projects on Upwork to appropriate developers, coordinating project alignment across a team of freelancers.

PROJECTS

Aqua Sentinel — IoT Water Safety System (Final Year Project)

Oct 2025 – Present

- Engineered an end-to-end IoT pipeline integrating flow, pH, TDS, and turbidity sensors for real-time water leakage detection and potability analysis.

- Deployed an ANN prediction model on Streamlit Community Cloud, surfacing Gemini API-generated insights on water consumption patterns to a Flutter mobile application via Firebase.

SAHA NGO — Responsive Website UI

Feb 2026

- Redesigned the complete UI of a non-profit website in Figma, optimizing donor-facing layouts for cross-platform engagement.

Home Automation System

Oct 2025

- Guided Forward Public School Girls students in building a smart home prototype with temperature monitoring, light/fan control, door locks, and laser-based security; developed a companion Flutter app for full IoT device control over the internet.

University Web Scraper

Sept 2025 – Nov 2025

- Built a hybrid scraping pipeline in Python using Selectolax and Selenium to extract and structure data from 200 universities into standardized JSON format.

EDUCATION

Bachelor of Science in Computer Science

Oct 2022 – Jul 2026

CECOS University of IT and Emerging Sciences, Peshawar

CGPA: 4.0

Higher Secondary School Certificate

Aug 2017 – Jul 2019

Army Public School and College (Girls), Peshawar

VOLUNTEER EXPERIENCE

Campus Director — Zindigi Prize Society, CECOS University

Dec 2024 – Present

- Lead the CECOS chapter of the Zindigi Prize student society, affiliated with Zindigi by JS Bank, active across multiple universities nationwide.

Vice President — CECOS International Mathematical Union

Dec 2024 – Present

Female President — CECOS Sports Society

Jan 2023 – Present

Volunteer — CECOS Career Development Center

Feb 2024 – Present
